

## In adoration

*$\int_4^5 A/E E$                        $\int A/E E$*   
In ad-or- a - tion I come be-fore You  
 *$\int_4^4 F\# m/E$                        $\int B/E$*   
To bow in reverent awe    with gratitude and love,  
 *$\int E$                        $\int E$*   
For You have won my heart.

My grand illusions of self-importance  
Are melted like the snow when spring starts drawing near.  
Lord, You have won my heart.

*$\int B/E$      $A$      $\int E$*   
*For there is no-one like You;*  
 *$\int B/E$      $A$      $\int E$*   
*Yes, there is no-one like You.*

*$\int F\# m/E$                        $\int B/E$*   
*I've seen what You can do    and I want to tell You now*  
 *$\int E$                        $\int E$*   
*That You have won my heart.*
